WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make two. Hardwood 1,400 x 200 x 100 mm, sawn square.

Mark the three runner positions on top: 500 mm apart, the middle one at the centre of the length.

Seal the ends; chamfer the top edges 10 mm.

It lies flat on firm ground, square to the runners, its near edge at least 350 mm back from the rim.

Check: it lies flat without rocking; the marks are square.

WELLSLING

github.com/BoujeeEnjinia1701/wellsling

WellSling: rim bearer (make 2)
