WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make two. Wool felt 10 mm thick, cut 1,000 x 260 mm.
Cover: heavy canvas sewn as a flat tube around the felt,
with a 300 mm wide pocket open at both ends so the band
slides through it.
It is padding only. It must not stiffen the band: no boards,
rods or plates of any kind inside it.
It sits under the animal's chest or flank, centred on the band.
Check: the band slides through by hand; the sleeve folds flat.

WELLSLING github.com/BoujeeEnjinia1701/wellsling

WellSling: felt sleeve on the webbing band (make 2)
