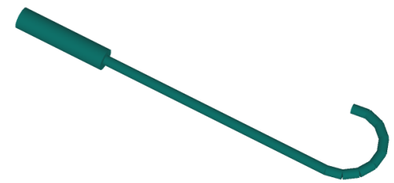
Scale 1:5; looking at the right side (along -X)



WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make one. 16 mm round bar, 400 mm straight, then an open hook of 60 mm radius, bent cold through about 200 deg.
Round the hook tip; it catches the messenger line, not the animal.
Spigot: 35.5 mm tube, 150 mm long, welded on the straight end, with the button lock, to fit any pole section.
Check: the hook picks an 8 mm line off the floor easily.

WELLSLING
