WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make three. RHS 100 x 50 x 3 mm, 4,500 mm long, 100 mm upright.
End caps: 4 mm plate, welded all round, with a 10 mm vent hole
near each end before galvanising.
Paint a white band 1,250 mm in from each end: the bearer goes
between the band and the end, so 4.0 m spans the well.
It is pushed across the well mouth from one side, resting on
both rim bearers, 500 mm from the next runner.
Check: straight within 5 mm; no dents in the top face.

WELLSLING github.com/BoujeeEnjinia1701/wellsling

WellSling: bridge runner (make 3)

DRAWING NO.	REV	SHEET	SIZE
WSL-DWG-114	P1	1 of 1	ANSI B
