WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Make four. Side plates: two 40 x 150 x 10 mm, 26 mm hole 25 mm above the bottom end; corners rounded.
Top bar: 25 mm round bar 258 mm long, welded between the plates 100 mm above the hole centres; plates parallel.
Lug: 60 x 50 x 10 mm with a 14 mm hole in the middle, welded on the top bar at its centre.
Removable bar: 25 mm round bar 322 mm long, chamfered, 6.5 mm R-clip hole 10 mm in from each end.
The removable bar goes through one plate, the band's sewn eye and the other plate; an R-clip at each end.
Galvanise the frame and the bar.
Check: the bar slides through plates and eye by hand.

WELLSLING github.com/BoujeeEnjinia1701/wellsling

WellSling: band end yoke (make 4)

DRAWING NO.	REV	SHEET	SIZE
WSL-DWG-116	P1	1 of 1	ANSI B
